

Monthly Report

Cargo iQ Reporting Cycle

Every month, Cargo iQ issues reports that show consolidated airfreight industry data for the previous month.

This monthly report contains volume and performance data for airport-to-airport (A2A) movements.

Further reports are available to Cargo iQ members to improve their internal process– and data-quality and benchmark themselves to the industry.

GLOSSARY

NFD - Measure of on time 'Notification of freight and data* availability' at destination.

POD - Measure of freight delivered to consignee when promised.

A2A - Airport to airport

D2D - Door to Door

Data Summary	<p>Number of A2A shipments measured for June 2021 see a slight decrease comparison to the previous months. A new airline member started reporting from June 2021. Numbers are drastically higher than last year because the primary impact of COVID-19 was evident in April 2020 figures for the first time, which has since recovered slowly.</p> <p>There is an increase in D2D shipment count for June against May, and the numbers also look optimistic against previous year, showing a slow but sure recovery.</p>

Reporting Remarks

Cargo iQ is committed to the global implementation of its quality processes. Based on the outcome of the latest membership vote, every member's performance is listed irrespective of the figures. Airline member Turkish started reporting in Apr 2021 and Royal Air Maroc started in June 2021 and hence are sorting out discrepancies which is evident from their figures.

All reports represent members with different networks, product portfolios and Cargo iQ shipment-share compared to total volumes. No conclusions on their relative performance in the form of ranking should be drawn.

NFD - Measure of on time freight and document* availability' at destination. (* - paper documents or electronic shipment data) based on individual agreements between airlines and forwarders.
